Protect Your Teen from Identity Theft

www.transunion.com
www.consumer.gov/idtheft

Get free credit reports and the latest facts for consumers on identity theft on these two sites. Find out how it happens, what to look out for and what to do if you are a victim.

Teenagers & Identity Theft

Teens are often a target of identity theft because:

- Thieves assume no one is checking their credit, so the theft can go on for longer.
- Most teenagers go for years without using their Social Security Number (SSN).
- Often, teens first realize they have been victimized when they go to apply for a driver's license and find out one already has been issued to someone else using their name and SSN.

The Internet and Identity Theft

www.spywareguide.com
www.identity-theft-protection.com

These sites connect you to more information about how to protect your family online. Beware of spyware that is often used to gather confidential information. In most cases the victim has no idea their information is being stolen.
